

## APPLICATIONS FOR THE MEDICALLY RELATED DONATIONS PROGRAMME

### GUIDELINES FOR APPLICANTS

1. This programme is available to registered or exempt charities operating within the United Kingdom, and is for capital projects only.
2. The purpose of the programme is to support innovation in the provision of (a) infrastructure for medical research in universities and hospitals, and (b) an original care model for the severely disabled. For further information about both of these categories, please follow the link to [Medically Related Donations](#) on the Trust's website.
3. Potential applicants should note that it is not possible for the Trust to make donations to:
  - a. Beneficiaries who do not have registered charity status,
  - b. Overseas organisations, or to organisations based in the UK who are seeking support for a project overseas,
  - c. Faith-based charities.

6. Please note that:-

Substantial demand for the Trust's limited and finite resources means that application for a medically related donation is a competitive process. Submission of an Expression of Interest does not guarantee shortlisting or the award of funding.

For sums below £1500 the Ann Rylands Small Donation Programme application process should be used.

7. Applicants should contact the Trust, should they have any further questions:

Tel: 0207 487 5851
